VOLUME 77
July to August 1981

ACADEMIC PRESS

LONDON NEW YORK TORONTO SYDNEY
SAN FRANCISCO

ISSN 0022-460X

CONTENTS OF VOLUME 77

NUMBER 1, 8 JULY 1981

LEISSA, A. W. and IYER, K. M., Modal response of circular cylindrical shells with structural damping	1
HODGES, D. H., An approximate formula for the fundamental frequency of a uniform rotating beam clamped off the axis of rotation	11
TANAKA, H. and TAKAHARA, S., Fluid elastic vibration of tube array in cross flow	19
VAN MOORHEM, W. K., SHEPHERD, K. P., MAGLEBY, T. D. and TORIAN, G. E., The effects of motorcycle helmets on hearing and the detection of warning signals .	39
CLARK, J. A., A matched impedance, electrostatic approach to hydrophone design	51
NIGH, G. L. and OLSON, M. D., Finite element analysis of rotating disks	61
SUTTON, G. J. and ROBINSON, D. W., An appraisal of methods for estimating effectiveness of hearing protectors	79
PRITZ, T., Apparent complex Young's modulus of a longitudinally vibrating visco-elastic rod	93
SU, T. C., The effect of viscosity on free vibrations of submerged fluid-filled spherical shells	101
THOMPSON, J. M. T. and LUNN, T. S., Static elastica formulations of a pipe conveying fluid	127

Letters to the Editor

KO, N. W. M., Responses of teachers to road traffic noise	133
ÅKESSON, B. Å. and FRIBERG, P. O., Eigenfrequencies of flexibly clamped cantilever with concentrated mass at free end	137
SUBRAHMANYAM, K. B. and KULKARNI, S. V., Torsional vibrations of pre-twisted tapered cantilever beams treated by the Reissner method	142
KOHOUTEK, R., Natural longitudinal frequencies of a uniform rod with a tip mass or a spring	147

NUMBER 2, 22 JULY 1981

BISHOP, R. E. D. and MAHALINGAM, S., An elementary investigation of local vibration	149
HECKL, M., The Tenth Sir Richard Fairey Memorial Lecture: Sound transmission in buildings	165
DAVIES, P. O. A. L., Flow-acoustic coupling in ducts	191
BARRON, M. and MARSHALL, A. H., Spatial impression due to early lateral reflections in concert halls: the derivation of a physical measure	211
TAYLOR, S. M., HALL, F. L. and BIRNIE, S. E., A comparison of community response to aircraft noise at Toronto International and Oshawa Municipal airports	233

CONTENTS OF VOLUME 77

MAIDANIK, G., Principle of supplementarity of damping and isolation in noise control	245
NARAYANAN, S. and SHANBHAG, R. L., Sound transmission through elastically supported sandwich panels into a rectangular enclosure	251
NATKE, H. G. and SCHULZE, H., Parameter adjustment of a model of an offshore platform from estimated eigenfrequencies data	271

Letters to the Editor

DRIELS, M. R., An improved experimental technique for the laboratory investigation of cavitation induced by underwater shock waves	287
LAURA, P. A. A., GUTIÉRREZ, R. H. and SÁNCHEZ SARMIENTO, G., Vibration of plates of variable thickness	291
LY, B. L., Rocking frequency of an offset mass on a rectangular plate	295
FITZPATRICK, J. A., Identification of normal modes from the random responses of a two degree of freedom system	298
ERRATA	301

NUMBER 3, 8 AUGUST 1981

LAURA, P. A. A. and FICCADENTI, G. M., Transverse vibrations and elastic stability of circular plates of variable thickness and with non-uniform boundary conditions	303
DAVIES, H. G. and WAHAB, M. A., Ensemble averages of power flow in randomly excited coupled beams	311
WÖHLE, W., BECKMANN, TH. and SCHRECKENBACH, H., Coupling loss factors for statistical energy analysis of sound transmission at rectangular structural slab joints, part I	323
WÖHLE, W., BECKMANN, TH. and SCHRECKENBACH, H., Coupling loss factors for statistical energy analysis of sound transmission at rectangular structural slab joints, part II	335
NARITA, Y., Application of a series-type method to vibration of orthotropic rectangular plates with mixed boundary conditions	345
TRETHEWEY, M. W. and EVENSEN, H. A., Identification of noise sources of forge hammers during production: an application of residual spectrum techniques to transients	357
OSMUNDSEN, E. and GJAEVENES, K., The noise attenuation of weak shock waves by ear muffs	375
POPPLEWELL, N., SCARTH, D. A., MCALLISTER, W. J. and YOUSSEF, N. A. N., Maximum displacement of continuous systems excited by incompletely described loads	387
TANAKA, K. and ISHII, S., Acoustic radiation from a moving line source	397
THOMPSON, A. G., Optimum tuning and damping of a dynamic vibration absorber applied to a force excited and damped primary system	403

CONTENTS OF VOLUME 77

CRAVEN, P. G. and GIBBS, B. M., Sound transmission and mode coupling at junctions of thin plates, part I: Representation of the problem	417
GIBBS, B. M. and CRAVEN, P. G., Sound transmission and mode coupling at junctions of thin plates, part II: Parametric survey	429

Letters to the Editor

BROOKS, T. F., Trailing edge noise prediction using Amiet's method	437
LEVINSON, M., Further results of a new beam theory	440

NUMBER 4, 22 AUGUST 1981

SINGH, Y. P., Quenching in a system of van der Pol oscillators with non-linear coupling	445
DAVY, J. L., The relative variance of the transmission function of a reverberation room	455
COLEBY, J. R. and MAZUMDAR, J., Transient vibrations of elastic panels due to the impact of shock waves	481
SHEPHERD, I. C. and CABELLI, A., Transmission and reflection of higher order acoustic modes in a mitred duct bend	495
HIRANO, Y. and NAGAYA, K., Unsteady response due to support fracture of a multispan vibrating beam	513
ERTEPINAR, A. and GÜRKÖK, A., Large amplitude radial oscillations of inhomogeneous tubes of arbitrary wall thickness	527
CLARKSON, B. L. and POPE, R. J., Experimental determination of modal densities and loss factors of flat plates and cylinders	535
ORLOWSKI, R. J., An eighth-scale speech source for subjective assessments in acoustic models	551
PETÝT, M. and FLEISCHER, C. C., Finite strip analysis of singly curved skin-stringer structures	561

Letters to the Editor

PANICKER, V. B. and MUNJAL, M. L., Impedance tube technology for flow acoustics	573
SUBRAHMANYAM, K. B. and KULKARNI, S. V., Reissner method analysis of tapered cantilever beams vibrating in flexure	578
CLARKSON, B. L., The derivation of modal densities from point impedances	583
ANNOUNCEMENTS	585
HUMAN RESPONSE TO VIBRATION	597
INDEX TO VOLUME 77	601
